GUTANG GOTTONG™

HAVE A NICE TRIP !!

1 Let your train pass all the stations

2 Your train is sped up by the accelerate button

3 Adjust railway lines by the control lever Your course is where the color changes, but be careful with the dead end !

4 Also be careful with "Loop sweeper" when you make loop lines

5 More points for "Bonus lines", but you never know which way your train goes until it gets to the junction

6 Get quickly to the station showing bonus points, otherwise the station will be blown up or another Crazy train will come out

7 Arrange railway lines so as to let Crazy trains clash into each other, but once the clash happens, such area becomes "No thoroughfare"

Specification might change without further notice.
